## PROFILE SUMMARY

Information Technology undergraduate with hands-on experience building and deploying full-stack web applications using React.js, Node.js, Express.js, and PostgreSQL. Comfortable across the stack — from REST API design and authentication (JWT, OAuth) to responsive UI development and cloud deployment (Vercel, Render). Strong fundamentals in Data Structures & Algorithms, Git/GitHub, and CI/CD, with 5+ deployed personal projects. Seeking a Software Development Internship to apply and grow these skills in a production engineering environment.

## EDUCATION

**St. Francis Institute of Technology — B.Tech in Information Technology**

GPA: 8.50 / 10

*Expected 03/2028*

*Mumbai, Maharashtra*

**Sudarshan Jr. College — Class XII (Commerce, Science & Arts)**

Percentage: 76.2%

*07/2022 – 05/2024*

## PROJECTS

**DataStock — Cloud Storage Platform**

*05/2026 – 07/2026*

- Built a secure, self-hosted alternative to Google Drive with granular access controls and storage analytics, using a React SPA → Express REST API → PostgreSQL (Prisma ORM) → Cloudinary CDN architecture.
- Implemented 3 authentication methods — JWT, Google OAuth, and email OTP verification — for secure user access.
- Integrated Cloudinary for file storage supporting uploads up to 100 MB per file, with preview, download, and folder organization.
- Designed responsive dashboards with 6 interactive storage analytics charts, file search, notifications, and profile management.
- Handled concurrent file uploads with progress tracking; deployed frontend on Vercel and backend on Render with GitHub-based CI/CD.

**Finance Tracker — Personal Finance Management App**

*10/2025*

- Built a full-stack personal finance tracker (React.js, Node.js, PostgreSQL) with budget automation, spend reporting, and trend insights.
- Implemented GitHub-based version control workflows and continuous feature iteration, including notification and security enhancements.

**SIH — Doctor-Patient Platform (UI Demo)**

*08/2025 – Present*

- Building a doctor-patient platform UI demo using React.js, JavaScript, and CSS Grid for Smart India Hackathon (SIH).
- Cleared the internal college-level selection round; currently preparing for the SIH PPT round.

## CERTIFICATIONS

- 2nd Runner-Up — SFIT Colloquium Hackathon
- The Complete Full-Stack Web Development Bootcamp — Full-Stack Development Program
- Frontend Frontier — Frontend Web Development Program

## LEADERSHIP & VOLUNTEERING

**IEEE Student Branch, St. Francis Institute of Technology — Technical Executive**

*07/2026 – Present*

- Organized and coordinated technical workshops, coding events, and hackathons for students.
- Collaborated with the IEEE committee to plan and execute technical activities and campus events.
- Managed event logistics, participant engagement, and technical support.
- Partnered with cross-functional teams to promote learning opportunities and boost student participation.

## SKILLS

**Languages & Frameworks:** JavaScript, Java, C, React.js, Node.js, Express.js, Tailwind CSS

**Databases & ORM:** PostgreSQL, MongoDB, Prisma ORM, pgAdmin

**Tools & Platforms:** Git, GitHub, Docker, GitHub Actions (CI/CD), Postman, Vercel, Render, VS Code, Figma, Canva

**Core Concepts:** Data Structures & Algorithms, REST APIs, JWT Authentication, Socket.io, OAuth, Python (fundamentals)

**Languages Spoken:** English, Hindi, Kannada, Marathi, Marwari (Basic)
